Cauliflower Dammann's Primus

(earliest short-stemmed Italian Giant)

Introduced by my firm in 1897.

The finest and earliest of all Italian Cauliflowers with enormous snow-white solid heads.

The result of a most careful and continuous selection.

Not equalled by any other sort.

The Cauliflower for market gardeners, giving the highest satisfaction everywhere.

Preferred to any other sort wherever it has been grown.

Under the name of "Primus,, many absolutely inferior sorts are often offered. Be careful!!

True "Primus,, Cauliflower seed can be obtained only from my firm.
